## PROJECTS

### The Wild Oasis: A hotel booking management app | *React, Supabase, React Query* 🔄 | 🔗

- Developed a user-friendly hotel booking web platform utilizing React, Styled Components, React Query, and React Hook Form.
- Implemented essential features including CRUD operations, user authentication, and authorization for reservation and cabin management.
- Enhanced data management efficiency, user experience, and security through the integration of advanced functionalities such as advanced filtering, sorting, pagination, role-based access control, modular components, and error boundaries.
- Integrated dynamic data visualization using Recharts to display statistics and graphics, providing valuable insights to users.

### Shopyy: A admin dashboard | *React, Context API, Syncfusion* 🔄 | 🔗

- Created a feature-rich React-based Admin Dashboard App, implementing advanced state management with the Context API to ensure seamless user interactions.
- Demonstrated UI development expertise by seamlessly integrating Syncfusion components, enabling the creation of dynamic tables, interactive charts, and a Kanban board for an enhanced user experience.
- Developed personalized theming for user-centric design, prioritizing visual customization.
- Ensured seamless experiences on all devices through responsive design and optimized performance for scalability.

### Pizza Palette : A Pizza Ordering App | *React, Redux, TailwindCSS* 🔄 | 🔗

- Created a pizza reservation application featuring React Router to ensure smooth navigation.
- Utilized Tailwind CSS to craft an aesthetically pleasing and adaptable user interface.
- Implemented Redux Toolkit for effective data management, enabling seamless state handling.
- Employed Redux Thunk to manage asynchronous operations, enhancing the user experience and application responsiveness.

### Groco : A grocery Ordering Website | *HTML, CSS, Javascript* 🔄 | 🔗

- Utilized advanced CSS capabilities such as **CSS grids and flexbox** to achieve an optimal layout and design.
- Incorporated a sticky navigation element to enhance the user's navigation and overall browsing experience.
- Emphasized the importance of a user-friendly interface, a seamless shopping journey, and compatibility across various devices.

## TECHNICAL SKILLS

**Languages:** Javascript, HTML/CSS, Java, Python

**Libraries/Frameworks:** ReactJS, Redux, TailwindCSS, Material UI, Bootstrap, Supabase

**Developer Tools:** Git, Github, VS Code,

## EDUCATION

### Oriental Institute of Science and Technology

Bachelor of Technology in Mechanical, **7.03 CGPA**

**Aug. 2019 – July 2023**

Bhopal, Madhya Pradesh

### M.C.S. Public School

XII — MP Board, **60.8%**

**March. 2017 – Feb 2018**

Balaghat, Madhya Pradesh

### Balaghat English Higher Secondary School

X — CBSE Board, **8.8 CGPA**

**March. 2015 – Feb 2016**

Balaghat, Madhya Pradesh
